Report of the Event

Principles about women empowerment were briefly discussed. Women's sense of self worth, their ability to determine their own choices were promoted through this program. The individuals and government must both come together to make it happen. Education for girls must be made compulsory so that women can become illiterate to make a life for themselves. Women must be given equal opportunities in every field, irrespective of gender. Moreover, they must also be given equal pay. We can empower women by abolishing child marriage. The main outcome of the program is to treat all people fairly at work, respecting and supporting non- discrimination and human rights.

Programme Report

The speaker briefly discussed about cultural, political and socio economic achievements of women. Attentions were brought into the issues such as gender equality and violence and abuse against women. Importance of Womanhood involves love, affection, caring, power etc that comes under different personalities in life as mother, sister, wife etc. Women like Mother Teresa, Rani Lakshmi Bai etc are such great examples of the power and greatness that a woman carries. The main innovation of these activities is to raise awareness against bias and celebrate women's achievement and taking action for equality. Finally being **Self awareness** is the key aspect of solving any issue in society.
